o: the signature part of the mid-term assessment is OK (at least 5 points), if it is missing, the signature temporary refused (it can be done on a special exam during the first weeks of the exam period)

p: signature temporary refused

e: possible preliminary exam

x: signature permanently refused

o: practical tasks accepted, **missing exercises can be completed only at the practice leader!**

Those who have not completed their practical tasks must make up for the missing exercises with the practice leader, at a time agreed upon in advance with the practice supervisor!

Missing practice signatures cannot be made up in a supplementary exam!

Scoring:

(5-6] : 2

(6-7.5) : 3

[7.5-8.5): 4

[8.5-10] : 5

Notes:

The scores are counted together with the “+Points”.

Please, everyone, check the table, I may have overlooked something. (It's my fault, if I overlook it, of course, the actual result counts for everyone - so if I write a better grade by mistake, let me know, and if I write a worse one, let me know.)

If you need to make up a missing practice, please make an appointment with your practice supervisor.
